Annie Haslam: "When Magenta were invited to perform at the RoSFest Festival, USA in the Spring of 2005, it was the perfect opportunity to see the band perform live. Great songs, great musicians and an excellent singer! After that show we stayed in touch and I had mentioned that I would love to do a duet with Christina sometime. Before I knew it, Rob and Christina had written a new song called 'Night And Day'. I found it reminiscent of the Renaissance song 'Northern Lights' I was also inspired to paint my interpretation of the song, and so this became the cover art called 'Essence Of Love', which then in turn became the inspiration for an instrumental piece of the same name. I am proud to be part of this project and hope it brings 'inspiration' of some kind to you.
