Chimpan A is a project initially conceived by Rob Reed (Magenta, Trippa), but it soon took on a whole life of it's own. With Steve Balsamo (The Storys, plus appearances with artists such as David Gilmour, Roger Daltry, and Robert Plant) and Rob Thompson (The Storys), this debut CD is a masterpiece. Special guests Sam Brown (Pink Floyd, David Gilmour, Jools Holland, solo work), Aitch McRobbie (David Gilmour, Deep Purple), Christina Booth (Magenta, Trippa), Margo Buchannon (Eric Clapton, Seal, Joni Mitchell), Sian Cothi (Phantom Of The Opera), Tony Dallas & Ryan Ashton. An astonishing album with influences from Pink Floyd to Moby, pushing boundaries and breaking new ground.

### Key points

- Highly regarded release with UK music press
- Impressive line-up of artists, including Steve Balsamo and Rob Thompson of The Storys who have supported Elton John for the last three years at all of his stadium concerts.
